EXECUTIVE SUMMARY

(i) DATA HIGHLIGHTS: 1991 TO 1999

Manitoba merchandise exports to the rest of the world were $7,981 million in 1999, up 159.2% from the 1991 level of $3,079 million. Canada's total merchandise exports during the same time frame increased 139.1%, from $138,519 million in 1991 to $331,222 million in 1999. Between 1998 and 1999, Manitoba's foreign exports fell by 1.1% while Canada's foreign exports grew by 11.4%.

Manitoba's merchandise imports from other countries went from $3,116 million in 1991 to $8,235 million in 1999, an increase of 164.3%. Between 1998 and 1999, Manitoba's imports decreased by 4.7%.

Manitoba's agricultural exports rose from $1,190 million in 1991 to $1,552 million in 1999, an increase of 30.4%. Manitoba's non-agricultural exports rose from $1,889 million in 1991 to $6,429 million in 1999, an increase of 240.4%. Agricultural exports as a percent share of total Manitoba exports fell from 38.7% in 1991 to 19.4% in 1999 while non-agricultural exports as a percent of total exports rose from 61.3% in 1991 to 80.6% in 1999.

Manitoba's major trading partner is the United States. Exports to the United States grew from $1,851 million in 1991 to $6,484 million in 1999, an increase of 250.3%. Exports to non-U.S.A. countries during that same time period went from $1,228 million to $1,497 million, an increase of 21.9%. Consequently, the United States' percent share of Manitoba exports has risen from 60.1% in 1991 to 81.2% in 1999. Seven of the last 8 years have produced double digit annual growth in export trade with the United States, averaging over 17% per year. Exports to the U.S.A. for 1999 were 6.8% higher than during 1998, while imports from the U.S.A. were down 4.1% during that same time frame.

While the overall growth of Manitoba exports was 159.2% between 1991 and 1999, the export growth to NAFTA countries was 253.0% and accounted for 82.5% of all foreign merchandise

exports in 1999. Manitoba exports to Pacific Rim countries increased by 41.7% between 1991 and 1999 and accounted for 9.6% of total exports in 1999. Exports to NAFTA countries increased by 6.1% from 1998 to 1999 while exports to Pacific Rim countries decreased by 31.9% during this same time period.

Manitoba manufacturing exports grew from $1,518 million in 1991 to $5,313 million in 1999, an increase of 250.0%. Manufacturing exports to the U.S.A. rose from $1,366 million to $4,761 million during that time frame, a 248.5% increase. Manufacturing exports to the U.S.A. accounted for 89.6% of Manitoba's total manufacturing exports in 1999. Manufacturing exports accounted for 66.6% of total exports during 1999. Manufacturing exports fell by 1.7% between 1998 and 1999.

(ii) CHARTS:

The following ten charts highlight the changes that have occurred in Manitoba's trade performance over the last nine years.

(iii) TABLES:

The tables in this report provide detailed export and import data by country (U.S. state), major commodities, and industry. It is the most comprehensive trade tabulation ever produced from MBS Trade Database.

INTRODUCTION:

This report has been prepared by the Manitoba Bureau of Statistics (MBS) as part of its economic statistics program. Its purpose is to provide information for Manitoba on the importance and impact of international merchandise trade.

This publication provides international merchandise trade data by country, commodity and industry. The information is from Statistics Canada's International Trade Division. Merchandise trade data presented covers the 1991 to 1999 calendar years.

Users should be aware that the export data is on a "province of origin" basis, while the import data is on a "province of clearance" basis. Therefore, a significant quantity of imports from other countries are not counted as they are cleared through custom ports in other provinces and then shipped to Manitoba (MBS would count these as interprovincial imports). This implies that the trade balances calculated for individual countries could overstate Manitoba's actual position.

All commodity data presented in this report are based on the Harmonized System (HS) which was adopted for both exports and imports in 1988.

The Manitoba Bureau of Statistics has available additional detailed information which can be supplied to interested users on a cost recovery basis. Export/Import information that can be provided includes:

i) individual commodities for specific countries
ii) individual commodities by country (volume and dollar value) at the 4, 6, 8, or 10 digit HS level
iii) commodities by country for specific industries or sectors.

For answers or further information, please contact Marcel Chartier at (204) 945-2991.

NOTE TO USERS:

This publication contains the revised trade information for the 1996 to 1999 period. These are the most current numbers available from International Trade Division. The 1997 to 1999 information is subject to further revision in February, 2001.

The presented export information is as released by Statistics Canada. MBS has made no revisions to Statistics Canada's cereal grains, oil seeds or crude petroleum export values for Manitoba. MBS adjusts the value of exports for these commodities in its Manitoba Economic Accounts. These adjustments are undertaken to better reflect the value of the foreign export of these commodities to the provincial economy.

Starting with the 1993 data, Statistics Canada is using an "average transaction value" and not the "commercial asking price" for wheat. As a result, 1993 through 1999 export levels are not directly comparable to previous years.

In this publication, the MBS has made adjustments to the import statistics released by Statistics Canada. Firstly, adjustments have been made on 1991 to 1993, 1997 and 1998 aircraft imports from France to better reflect Manitoba's true share of these imports, which are being used throughout Canada. The second adjustment is that the MBS import value excludes commodities classified as "Imports from Canada".
